

Free internet telephony that simply works

Why should you have to choose between low-cost and convenience? The VOIP 121 VoIP USB adaptor & telephone solution lets you use any VoIP telephony provider, for its low cost and the convenience of being able to speak without metering your call. And you do no longer need to sit on your chair in front of your noisy computer. You can now make your call, and move with your cordless DECT 121 phone to your sofa, at your dining room table or even in your bed or in your garden. You will still benefit from the crystal sound voice quality.

All this comes in a simple to install and easy to use package: a simple solution for a better VoIP experience.

Freedom to enjoy internet telephony
